ABOUT ME

- I'm a Computer Science student at Interworld Colleges Foundation, Inc. who enjoys building web applications, exploring computer hardware, and learning about networking. I'm passionate about technology, problem-solving, and continuously improving my programming skills through academic and personal projects. Outside of coding, I enjoy playing online multiplayer and story-driven games on Steam.

ACADEMIC & PERSONAL PROJECTS

HEALTHHUB: CLINIC MANAGEMENT SYSTEM 2026

- Developed a full-stack web-based clinic management system for the Interworld Colleges Foundation, Inc. School Clinic, designed to centralize patient records and daily clinic operations.
- Implemented patient management, clinic visit records, medicine inventory, health records, and reporting features to streamline the clinic's daily operations and record-keeping.

COLLEGE OF INFORMATION AND COMPUTER STUDIES WEBISTE 2026

- Developed a responsive college website featuring programs, faculty, admissions, news, events, galleries, etc.
- Implemented a content management system that allows authorized users to manage and update website content and media.

PERSONAL PORTFOLIO WEBSITE 2025

- Developed a personal portfolio website using React/TypeScript to showcase my technical skills, and development projects.
- Designed a responsive and user-friendly interface with modern layouts, interactive elements, and smooth navigation.

CERTIFICATIONS

- **Introduction to Modern AI:** Understanding AI and Machine Learning fundamentals, prompt engineering, Large Language Models (LLMs), multimodal prompting, and chatbot tools.
- **Operating Systems Basics:** Managing Windows and Linux system administration, shell command operations, basic system security, and network setup.
- **Java (Basic):** Applying core programming concepts, object-oriented principles, structured logic, and fundamental problem-solving.
- **React (Basic):** Building modern front-end user interfaces, managing component state and props, and creating interactive web elements.
- **Node.js (Intermediate):** Demonstrating intermediate proficiency in back-end development, event-driven architectures, asynchronous programming, and API management.

ADDITIONAL

Technical Skills: JavaScript, React, Express.js, Node.js, MySQL, HTML/CSS; Familiar with, Git, etc.
Certifications: CodeCred – HTML Fundamentals; Grasshopper – Coding Fundamentals · Languages: English (proficient), Filipino (native), Iloko (conversational)
